International

YOGA DAY

21st June, 2025 (7.00-7.45AM)

A timeless path to strength,
serenity, and self-discovery!

**YOGA FOR ONE EARTH,
ONE HEALTH**

Press Note: CMAC Techno Foundation Celebrates International Yoga Day 2025

Hyderabad, June 21, 2025 – CMAC Techno Foundation, on behalf of CMAC India Pvt. Ltd., an ISO 9001:2015 certified leader in designing, manufacturing, and supplying construction equipment for vertical transportation in the infrastructure sector, proudly celebrated International Yoga Day 2025. The celebration took place over three days at 10 construction sites in Hyderabad simultaneously, in collaboration with esteemed partners such as Ramky, Urban Rise, Vajram Constructions, SVS Construction and other developers.

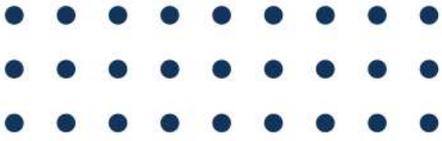

This year's theme, "Yoga for One Earth, One Health", encapsulates a message of global unity in health and wellness. In alignment with this theme, CMAC Techno Foundation initiated a drive to promote Yoga among workers and managers at different construction sites, highlighting the importance of integrating Yoga into daily life to maintain physical and mental health while combating various workplace challenges.

Throughout the 3-day event, CMAC saw an overwhelming response from participants. The number of attendees grew steadily each day, starting with 430 people on June 19, increasing to 1,162 participants on June 20, and reaching a remarkable 1,314 participants on June 21. This significant increase reflects a growing awareness of the health benefits of Yoga and its positive impact on well-being among the workers at construction sites.

CMAC Techno Foundation takes pride in having successfully introduced this initiative, which has fostered a healthier, more conscious workforce on construction sites, aligning with the global vision of "One Planet, One Health." CMAC remains committed to improving the well-being of all its employees, ensuring a culture of growth, balance, and wellness across its operations.

MESSAGE FROM MD

"At CMAC, we believe that the health and safety of our workers are as important as the quality of the work they deliver. Yoga is an essential part of our wellness initiatives, and we are delighted to see such a remarkable participation from our workers and partners. The essence of 'One Planet, One Health' resonates with us deeply, and we hope that by incorporating Yoga into their daily routine, our workers will experience not only physical benefits but also emotional and mental balance. We are committed to continuing our efforts in promoting a healthier, more mindful work environment for all."
